Magnetek, Huntington, IN; Notice of Revised Determination on Reconsideration

On December 16, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for workers and former workers of the subject firm. The notice was published in the **Federal Register** on December 30, 1994 (59 FR 67735).

The initial investigation findings show that the workers producing magnetic components met all the worker group eligibility requirements for certification but the workers producing electronic ballasts did not meet criterion 3 (increased imports) of

the worker group eligibility requirements.

New findings on reconsideration show production of electronic ballasts ceased at Huntington, Indiana in August, 1994 when substantial worker separations occurred. Other findings on reconsideration show increased corporate imports of electronic ballasts from Mexico in 1994.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that workers and former workers of MagneTek in Huntington, Indiana were adversely affected by increased imports of articles that are like or directly competitive with magnetic components and electronic ballasts produced at the subject plant. In accordance with the provisions of the Act, I make the following revised determination for workers of MagneTek in Huntington, Indiana.

"All workers of MagneTek in Huntington, Indiana who became totally or partially separated from employment on or after July 26, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, D.C., this 11th day of January, 1995.

Program Director, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
